***Round 4 2/05/09***

### ***Coach's Report vs Burraneer***

Round 4 was time for Burraneer to make the long trip from the south to Lofberg Oval. Last year's game had the chocolates going to them 18–10. So on past form it was shaping up to be a good game.

Chris Temple lead the boys out for what, I think, was his first game as captain and Sunshine had his first go at number 9 in Matt Easy's absence. Tempo lead from the front and was well supported by his partner in crime, Moppy. Sunshine did his best at half back but a shithouse effort by the remaining 12 players had us behind 19–nil at the break. We just did not aim up & must have turned the ball over atleast a dozen times in 40 minutes which is about once every 3 and a half minutes. We continued to get isolated and our backline had rare touches of the ball, if any. Rocco broke his thumb which turned out to be season ending so all in all it could not have been worse. I gave everyone a good spray at half time and asked for a fair dinkum go. It seemed to work as things improve immensely and we got to within 5 points of them before a couple of late penalties sealed our fate 33–19. We won the second half 19–14.

Best and fairest points went 3 to Tempo, 2 points to Moppy and Sunshine got 1 point.
