***Round 5 9/05/09***

### ***Coach's Report vs Seaforth/Balgowlah***

Round 5 had us on the road to Seaforth with zero wins under our belt. They only had the one win so it was on the line for bottom of the ladder. It was a cracking game which saw KWP go down by 1 point, 12–11.

It was a hard game with plenty of big hits. We had our chances to win it but the bounce of the ball alluded us (Tom). We sat on their line for what seemed an eternity late in the second half but poor options and bad organisation saw us fritter away match winning opportunities. We played tough though and never gave up. The game was there for the taking but we just weren't quite good enough on the day. Losing Moppy after 20 minutes did not help our cause as the line out went off the rails a bit. Bad luck guys.

Kyle Samways was very committed to the game and tackled all day for 3 points. The Sheep tried his guts out all day, scoring a try and nabbing 2 points. And the last point went to Matt (is my head still attached) Easy. Sunshine was good in the second half and unlucky not to score and a better kicking game could have seen Joel amongst the points as well.

Remember guys this weeks game vs Clovelly could be Sheep's last game before he heads to the Solomons on a peace keeping trip. So lets lay it on the line and see if we can send him off a winner and get him drunk after the game.
